5th JD AI EI T I ADC A/S

Allegorical overlay. Like someone prominent (civilian) has mysteriously disappeared. Key figure in important negotiations ADC Bush (like E/W). Has a great deal of information that could be extremely damaging concerning true motives + proposed actions. Cover-up to explain disappearance (silenced). Press conference called to "explain" circumstances. International repercussions.

Site is a populated area, but building of interest is isolated not because of location but because of access. Strong impression of a vehicle pulling up in front of building and 2 people forcibly taking a third person into the bldg. At a later point in time, a large group of people (international / military, civilian, diplomatic + press) entering bldg. and waiting to have credentials checked by a uniformed man sitting behind a desk. Purpose of gathering is a press-type meeting designed to cover-up true circumstances surrounding the disappearance of the first person in order to avoid international repercussions.

End 1400
